This is the item title

The Hawaiian word mahi stands for strong . Mahi Mahi is a sea fish . It is the favorite among expats . Its taste is distinct and well-balanced, mild and somewhat sweet. As far as the texture is concerned, mahi-mahi resembles the swordfish the most. It is a firm-fleshed fish suitable for marinating and grilling. Most importantly it is perfectly suitable for making fish kebabs and tikkas for parties . Add mahi-mahi to your diet to boost your vitamin intake, particularly vitamins B-5 and B-6. Both nutrients help your cells function properly by supporting cellular metabolism. It a very lean source of protein. Mahi Mahi is also known as Paarla_Parla .
